

## Start Information and Race Briefing for Main Event

All riders must listen to the briefing. Thank you for your patience if start times are delayed slightly but we will strive to start promptly.

Please ensure that you position yourself at the start line according to the allocated race number you have been given. The numbers relate to the average speed you selected when you entered online so it is very important that you remain within these groups at the start. Please watch out for event signage and listen to the directions of the starters and marshals. Any non-compliance by riders may see them removed from the event. Riders will be released in pulses of 50 to 100 riders at one to two minute intervals.

All riders preparing for the 8.20am briefing please self marshal to the appropriate time groups. There will be ample opportunity to promote yourself up the groups on the road and it is far better than constantly being overtaken. Remember your time does not start until you cross the start mats. Ensure you are at the start area at least 30 minutes prior to your briefing time.
